A New Place to Call Home

A new home means more than having a roof overhead. It means having a place to settle in, build stability, and move forward with a greater sense of comfort and possibility.

After making do with an air mattress, Sh. By. recently reached an exciting milestone: she is officially housed! Through the support of SAWC and HN2H, her new home was furnished, helping turn her space into somewhere she can truly settle in, rest, and begin this next chapter.

Her journey represents so much more than a change in living situation. It reflects the progress, determination, and meaningful steps toward stability that happen along the way. Each step forward matters, and this milestone is a powerful reminder of what support and perseverance can make possible.

Our team is incredibly proud of how far she has come, and we hope you'll join us in celebrating this milestone and the new chapter ahead!
